Percenta Glass Cleaner SR

Percenta Glass Cleaner SR-concentrate is highly effective. The innovative microsplitting-procedure allows the careful cleaning without harmful tensides, solvents, enzymes and bleaches.

Percenta Glass Cleaner SR removes remains of dirt like oil, fat, smoke, nicotine, soot, and tensides from all glass panes like winter gardens, windows, solar plants, greenhouses and others. Percenta Glass Cleaner SR is the perfect preparation for sealing with Percenta Glass-Sealing SR (self-cleaning effect).

Mixing instruction:

Manually:	Basic cleaning	1:5	to	1:15
	Maintenance cleaning	1:15	to	1:400
Mechanically:	Basic cleaning	1:20	to	1:50
	Maintenance cleaning	1:50	to	1:400

Just spray on the pane of glass to be treated, let it affect shortly and wipe off with water.

If diluted with water, the time of affecting will be prolonged correspondingly.

After cleaning the surface should be wiped or rinsed carefully with clear water.

(Before starting the cleaning works, all surfaces should be checked for their cleaning suitability!)

Further Information:

Technical data sheet

Declaration of the content:

- 10 % phosphate (food quality)

No hazardous material!

UBA-No: 02090133

Returnable containers

Rinse the containers with water only, do not pour in foreign substances.

Note:

The present instruction for use is based on extensive researches, but doesn't release the user, to check the product and procedures for suitability for his own special use. Especially we are not responsible for such purposes of application and use which we have not emphasized particularly in writing.

By all means the instructions and notes of the safety data sheets must be taken into consideration.
